

The importance of paying Service Charges

Service Charges collected from all property owners ensure that all communal areas and grounds are maintained to a high standard, buildings are insured, utility costs such as gas and electricity are paid and that all residents can enjoy a clean, pleasant and safe environment.

All Service Charge monies are paid in advance into an interest-bearing account, specific to your development, to ensure there are funds available to meet all expenditure for the year ahead.

Please note:-

- Non-payment of service charge could result in works or services not being carried out within your development.
- Further implications of non-payment apply. Please refer to the Frequently Asked Questions section of the website.
